Limited Life Time Warranty for Firestone Air Springs.

The Air Spring Supply Company is proud to announce that from the 08 December 2022 all Airmax air helper kits sold will include a limited life manufacture warranty on Firestone RIDE-RITE™, SPORT-RITE™, COIL-RITE™ air bags.

The Air Spring Supply Companies Airmax Kits™, components, and accessories are warranted against defects in workmanship and materials. This limited warranty does not cover service or labour charges, freight or customs charges, lost wages due to down-time, neglect, misuse, abuse, misapplications, improper installation and failure due to external conditions or interference, overloading or alterations to the product and wear and tear.

This is the period of coverage:

- **RIDE-RITE™, SPORT-RITE™, COIL-RITE™ air springs – LIMITED LIFE TIME MANUFACTURE WARRANTY.**
- **Hardware & Brackets – 2 Years**

Firestone air springs are designed to provide years and thousands of kilometres of trouble-free service. The durability of Firestone air springs is such that they will often outlast other maintenance items on your suspension, such as bushings, shocks, and other components. Ride-Rite™ air springs are warranted to be free of material defects and/or workmanship for as long as the original purchaser owns the vehicle on which it was originally installed. The hardware and brackets which accompany the air spring are warranted for a period of 2 years. Firestone offers a complete line of air springs, with products available for a variety of applications. Regular maintenance helps predict when failure is likely to occur, allowing you to find a solution to problems before they happen. Periodically check for rocks, gravel, sand or other abrasive debris between the convolutions and around bead plates. Remove the debris to help prevent abrasive punctures.

For further information please contact the Air Spring Supply Company.
